

# BEFORE CIADA

## BIRTH TO BURIAL

Before Ciada is a pre-apocalyptic metal 5 piece band from Sydney, with the ideology of producing music that tells the story of humanities struggles, downfalls and impending collapse into a world that no-one could ever predict or embrace. Through music they aim to spread a message of who we are, who we were and most of all who we need to be.

*"Ciada" is an undefined word relating to the end of the world as humanity knows it. "We have become a race of greed, feeding off a world that has a limited amount of resources to sustain the manipulative, wasteful creatures we have become and this must change before we destroy everything we rely on to maintain our existence as beings" says Troy Ware (lead singer and lyricist).*

The band itself formed in late 2012 through a mindset connected by these similar ideas and their love of metal and music in general. *"It is a way to advise and educate those who have not yet been exposed to, or understand the inevitable destruction our world faces" adds Gabriel Gastro (guitar).*

Before Ciada have played numerous shows around Sydney and will embark on a 3 week east coast tour (in Australia) which kicks off on Thursday the 23rd of May at the Prince of Wales Hotel, Brisbane, and are playing shows through until Sunday the 9th of June at Yours and Owls, Wollongong. They have also been announced on the German RUDE (Rock Unter Den Eichen) festival line-up to play with bands such as Asphyx and Grave on the 26th-27th of July. Their full list of tour dates below.

Before Ciada has recently released a 5 track concept EP "Birth To Burial" based around the hardships and ideals linked with life. This has been met with much support on social media, streaming websites, radio and physical sales.

*"Birth to Burial is a statement, a learning curb and a story of life" Troy continues on to say of the EP. "This is an ever evolving, ever changing and always relentless world requiring a new sound, a new way of living and we have a great way to spread our message, in the music we produce".*

The members of Before Ciada have a combined lifetime experience playing all kinds of music. Troy Ware (vocals) has played for more than half his life in bands starting through his love of story-telling and stage performance in small time punk/screamo bands.

Gabriel Castro (guitar) fell in love with music writing at an early age and has built himself up through punk and rock and roll playing in cover bands and several of his own formations.

Michael Taylor (guitar) is undoubtedly the most experienced musician of the group. Through performing with "Buried in Verona" he toured around Australia several times and recorded overseas. He still maintains a myriad of fans solely based around his own musicianship.

Nathaniel Watkins (bass) secured his position in the music industry through his participation in "The Dead Republic" who performed several Australian east coast tours with international support through recordings. He also has a large influence on upcoming acts in NSW providing pre-production services for many artists in his home studio and during his off time, working on a countless number of side projects.

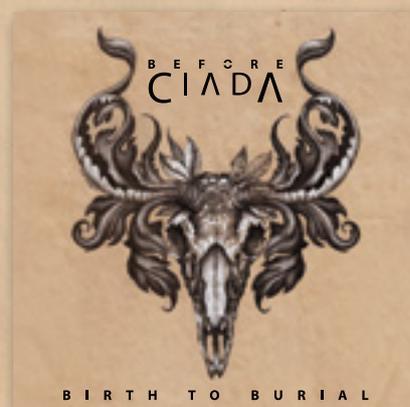

Daniel (Deej) Kinder (drums) spent most of his adolescence in punk/screamo bands recording several albums, playing fill-in for lost members and advancing his technique. *"We have the gift, right and responsibility to use our music as a medium, in order to create a better understanding of the world we live in, the lives that everyone lives and the sense of unity that comes from knowing no-one out there is truly alone"* says Deej.

Before Ciada has already begun pre-production of a forthcoming album, hopefully going into the studio in late 2013, which will add onto the heavy, fast paced predecessor Birth to Burial, recorded at Electric Sun Studios and mastered by Sterling Sound (USA).

Before Ciada aims to tour, spread their word, statement and music to the world. This starts in Germany (RUDE festival) and the band plans for it to be a long term commitment. Backed by a lust for life, a love of music and an unstoppable dedication to writing 'metal for the masses' Before Ciada plan to take the earth by storm.
